

A QUICK CHECKLIST TO KEEP YOU STRESS FREE

001.

## FILTERS - CLEAN THEM

CLEAN YOUR FILTERS EVERY MONTH

Using a garden hose, spray the filter and rotate while spraying to thoroughly remove any debris lodged between the filter pleats.

\*\*Replace your filter every three years with a new one.

002.

## HOT TUB - DRAIN IT

DRAIN & REFILL EVERY 3 MONTHS

Drain and refill the hot tub once every three to four months for optimal water upkeep. Use a mild cleaner and wipe down the hot tub shell with a damp sponge. Rinse out the tub and once clean, refill the hot tub with fresh water.

003.

## COVER - CONDITION IT!

CLEAN & CONDITION EVERY 4-6 MONTHS

The outside part of the hot tub cover gets the most exposure to the elements, so it is prone to collecting dirt. Clean off your cover at least once per month by rinsing with a hose. Every 4 months or so give your cover a good conditioning with a specific Hot Tub Cover Conditioner (Like Leisure Concepts Cover Care) \*\*Only use water to clean covers underside
